## CLINICAL RESEARCH IN PEDIATRIC ONCOLOGY

### Workshop: How do I design and write a clinical trial or treatment protocol?

A highly interactive theoretical and practical training course

July 1-4, 2025

Utrecht, The Netherlands

Are you eager to learn how to write a clinical trial or treatment protocol? Meet our international faculty who will teach you the tricks of the trade and provide expert input on your draft synopsis.

This 4-day workshop aims to train early-career clinical researchers in pediatric oncology to design and write a study synopsis for a clinical trial or a treatment protocol. This comprehensive synopsis can serve as a basis to finalize and implement a study or treatment protocol in your own local setting. The number of participants is limited!

Scan or click on the QR-code for more information and program.

\*Application will be made to the EACCME for CME accreditation

# Set-up

## Day 1-3:

---

**Morning:** Interactive lectures, focus sessions and expert panels focused on the theoretical aspects of designing and writing a synopsis for a clinical trial or treatment protocol

**Afternoon:** Hands-on workshops & dedicated time to write study synopsis or treatment protocol summary (with the input of faculty members)

## Day 4:

---

Finish and present synopsis to faculty members & peers

---

### Selection criteria

Early-career clinical researchers in pediatric oncology; 30 participants will be selected for live participation based on their motivation letter, curriculum vitae and study/treatment protocol proposal. Participants who wish to only obtain knowledge about this topic can join online during the morning program, which will be offered in a hybrid format.

---

### Fee

#### Live participation:

€ 885,00 early bird fee (till February 1st), including accomodation, meals and social program

€ 985,00 full fee (from February 1st), including accomodation, meals and social program
